Stainless steel

In metallurgy, stainless steel, also known as inox steel or inox from French inoxydable (inoxidizable), is a steel alloy with a minimum of 10.5% chromium content by mass.

Stainless steel is notable for its corrosion resistance, and it is widely used for food handling and cutlery among many other applications.

Stainless steel does not readily corrode, rust or stain with water as ordinary steel does. However, it is not fully stain-proof in low-oxygen, high-salinity, or poor air-circulation environments.

There are various grades and surface finishes of stainless steel to suit the environment the alloy must endure. Stainless steel is used where both the properties of steel and corrosion resistance are required.

Stainless steel differs from carbon steel by the amount of chromium present. Unprotected carbon steel rusts readily when exposed to air and moisture. This iron oxide film (the rust) is active and accelerates corrosion by making it easier for more iron oxide to form. Since iron oxide has lower density than steel, the film expands and tends to flake and fall away. In comparison, stainless steels contain sufficient chromium to undergo passivation, forming an inert film of chromium oxide on the surface. This layer prevents further corrosion by blocking oxygen diffusion to the steel surface and stops corrosion from spreading into the bulk of the metal. Passivation occurs only if the proportion of chromium is high enough and oxygen is present in it.

Stainless steel's resistance to corrosion and staining, low maintenance, and familiar lustre make it an ideal material for many applications.

Our parts system

Parts that require adhesive

We offer a complete selection of the highest grade adhesives for professional installation.

Page 69

Parts that require hardware

Our parts are available with a full range of system hardware as well as anchors for mounting to wood and concrete.

Page 68

Installation kits available

Our complete offering of installation kits, tools and accessories makes it easy to professionally install our systems.

Steel or wood posts

Drill Kit **AX00.070.630**
AX00.070.635 Page 70

Pre-assembled kit includes fittings and factory swaged cable in lengths 5'-25'

Included in kit

AISI 316

MINIMUM BREAKING STRENGTH - Cable Diameter 1/8" = 1,780 lbs.
1X19 STRAND TYPE 316 STAINLESS STEEL CABLE

1 x 19 Cable - 1/8" Diameter

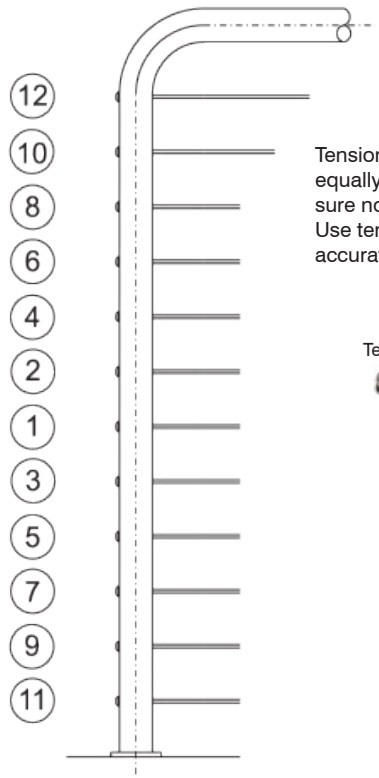
Cable Cutter

Page 71

Cable cut-off wheel

Page 71

Used to cut cable flush with the end of Pull-Lock fittings, and to cut excess threads of stud. Includes mandrel and two cut-off wheels.



Recommended Tensioning Sequence

Tension each row of cable equally to 225 lbs making sure not to over tighten. Use tension gauge to accurately measure tension.

Tension Gauge

Page 71

EASY AS 1-2-3

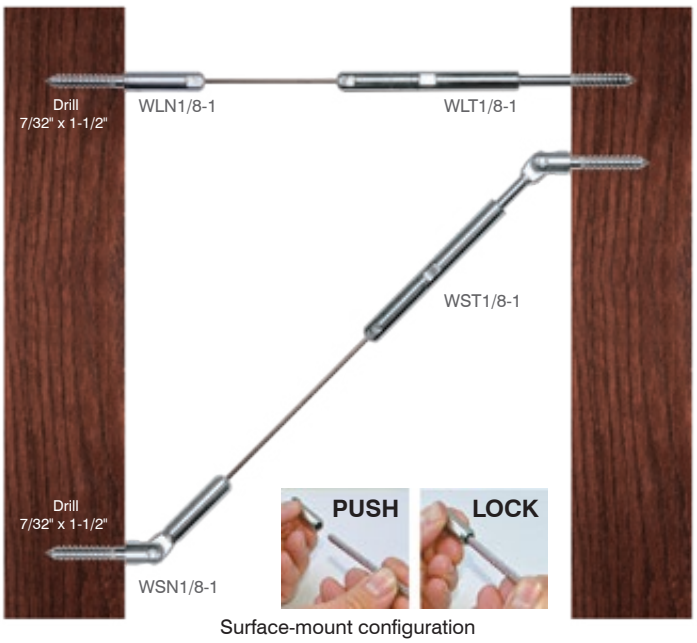
1. **What posts are you using? Wood or metal?**

2. **Measure your level and stair runs, calculate number of level and stair fittings.**

3. **Add up tensioners and non-tensioners, then calculate total cable footage (plus 5%).**

Push-Lock ® Fittings

Push-Lock fittings do not require any special tools for installation. Simply push the cable into the fitting and it locks.



Surface-mount configuration

For use with 1/8" cable

Threadlock

PERMABOND MH052 is ideal for the sealing of threaded joints. It is approved for use with gas for working pressure up to 26 bar and also for gaseous oxygen up to 10 bar and 60°C. MH052 seals against gas, water, LPG, hydrocarbons, oils and other chemicals. Unlike PTFE tape or hemp, Permabond MH052 will not shred or dry out, so it will provide a durable seal, helping to extend the life of the components. 75 ml

Thread Lock

Weight: .18 kgs (.4 lbs)

COD.

AX00.100.525

Anaerobic Adhesive

PERMABOND HM162 is a medium viscosity retaining compound that cures when confined between metal parts to form an extremely tough bond. It is best suited for cylindrical parts and where high temperature resistance is required. In the uncured, liquid state, the adhesive wets the metal surfaces, keying into all surface irregularities and fills the space between the mated parts. 50 ml

Anaerobic Adhesive

Weight:.136 kgs (.3 lbs)

COD.

EPC-410

Epoxy

Epoxy Adhesive, Rapid Cure, High Strength Paste, Translucent, 50mL, Cartridge, Mixing Ratio 1:1, Application Time 7 min., Functional Cure 4 Hrs, Full Cure 4 hr., Work Life 15 min., Substrates Metal, Wood, Brick, Stone, Marble, Rubber, Some Plastics, And More, Repairing and Bonding For Home, Farm, Office and Marine Automotive, Includes 2 Nozzles, Package Quantity 1

Two part epoxy

Weight: .114 kgs (.25 lbs)

COD.

EPC-101

Simultaneously mix and dispense 2-part adhesives. Holds 50 ml cartridges.

Epoxy gun

Weight:
.179 kgs (.394 lbs)

Clear Silicone

Titebond® 100% Silicone Sealant is a versatile formula that is ideal for both interior and exterior applications. It is a RTV industrial sealant and offers excellent adhesion to many common construction materials, including vinyl, aluminum, glass and painted surfaces. It also provides a strong, flexible seal that offers excellent water-resistance.

When fully cured, Titebond 100% Silicone Sealant can withstand extreme temperature conditions. The 100% antimicrobial formula will not crack or become brittle with age and resists fading or yellowing. It also extrudes easily in lower temperatures and dries quickly.

Clear Silicone Sealant

Weight: .365 kgs (.803 lbs)

AX00.080.505

- Superior alternative to steel wool, wire brushes, sandpaper, and other non-woven products for cleaning or finishing tasks.
- Very fine grade aluminum oxide abrasive cleans, finishes, grains, denibs, and defuzzes.
- Pad resists tearing, splintering, shredding, loading and will never rust, providing a long, useful life.
- Can be folded, stacked, or rolled for effective cleaning or conditioning on flat, irregular, or contoured surfaces.

Package of 2

Scotch Brite Pads

Weight:.116 kgs (.256 lbs)

COD.

AX00.080.515

Our strongest cleaner, ideal for removing hard to clean substances from all stainless steel products. Used most commonly after installation and prior to applying polish and passivator.

Degreaser

Weight: 108 kgs (.238 lbs)

Step 1

Step 2

COD.

AX00.080.510

Ideal for normal cleaning and maintenance of all stainless steel products. Use prior to applying passivator.

Cleaner/Polish

Weight: 108 kgs (.238 lbs)

Step 3

COD.

AX00.080.517

Essential for maximum corrosion resistance of all stainless steel products. Use after applying degreaser and polish.

Polish/Passivator

Weight: 108 kgs (.238 lbs)

1/2" punch for precision drilling.

Center punch

Weight: .068 kgs (.15 lbs)

COD.

S-9403 Sure tite fastener for wood newel posts.

Sure Tite Newel Fastener

Weight: .249 kgs (.55 lbs)

S-9401 Key lock fastener for wood newel posts.

Key Lock Newel Fastener

Weight: .301 kgs (.66 lbs)

COD.

AX00.070.652

Tap Magic Pro Tap
16 oz spout top.

Cutting fluid

Weight: .454 kgs (1 lbs)

AX00.110.710

Composite shims for proper post leveling/mounting.

Shims (12 pack)

Weight: .331 kgs (.73 lbs)

COD.

HFC18.CUTTER

Ideal for cutting our stainless steel cable or any cable up to 1/8" thickness

Cable cutter - small

Weight:
.344 kgs (.74 lbs)

COD.

HFC18.C9CUTTER

Ideal for cutting our stainless steel cable or any cable up to 1/4" thickness.

Cable cutter - large

Weight:
.86 kgs (1.89 lbs)

COD.

HFC18.PLIERS

Cable gripping pliers for proper tensioning.

Cable gripping pliers

Weight:
.748 kgs (1.65 lbs)

COD.

HFC18.WHEEL

Used to cut cable flush with the end of Pull-Lock fittings, and to cut excess threads of stud. Includes mandrel and two cut-off wheels.

Cable cut-off wheel

Weight:
.085 kgs (.187 lbs)

COD.

HFC18.KEY

Release key for all push lock fitting cable kits.

Cable Release Key

Weight:
.005 kgs (.01lbs)

COD.

HFC18.TENSION.GAUGE

Accurately measure tension on cable railing.

Tension Gauge

Weight:
.241 kgs (.53 lbs)

COD.

DRIVER PL-LAG/R

Push lock lag driver for use with **WLN1/8-1** swageless cable fitting.

Push lock lag driver

Weight:
.026 kgs (.059 lbs)

COD.

HFC18.TUBE

Insert tube for use with 1/8" cable and wood posts.

Insert Tube

Weight:
.005 kgs (.01 lbs)

COD.

AX10.070.212

Accurately bend 12 mm round infill tubing for curved applications.

Infill tube bender

Weight:
.301 kgs (6.35 lbs)

COD.

AX00.060.400

Our two stage hydraulic swaging compression tool allows for up to 16 tons of pressure to be applied to cable fittings. Full die set included for 3, 4, 5, 6 mm .

Hydraulic Crimper

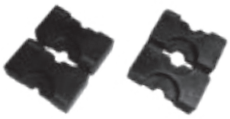
Weight:
4.2 kgs (9.25 lbs)

COD.

AX00.060.415 Die set for 3-4mm
AX00.060.420 Die set for 5-6mm

Die set

Weight:
.045 kgs (.1 lbs)



COD.

AX00.070.520

Threaded pop rivet installation gun. Interchangeable mandrel/nosepieces for blind rivet nuts sizes: M3,M4,M5,M6,M8

Pop rivet gun

Weight:
2.52 kgs (5.55 lbs)

COD.

AX30.070.530

Spanner wrench for tightening round standoffs.

Spanner wrench - round

Weight:
.187 kgs (.412 lbs)

COD.

AX30.070.531

Spanner wrench for tightening square standoffs.

Spanner wrench - square

Weight:
.295 kgs (.65 lbs)

COD.

AX40.070.562

This multi-function tool allows you to precisely hammer wedges into place and roll the rubber strip into place on U channel.

Wedge tool

Weight:
.68 kgs (1.5 lbs)

See our recommended tools section for information on cutting stainless steel. This section includes a complete range of tools that we highly recommend for professional installation.
